

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1 1. (currently amended) A method for generating a
2 personalized storm warning, comprising the steps of:

3 (a) establishing a user profile including a user defined
4 location of interest;

5 (b) receiving first weather information from a first weather
6 information source;

7 (c) generating automatically a storm track of severe weather
8 conditions from the first weather information;

9 (d) generating a storm warning for the user location of interest
10 automatically from the user profile and the storm track by comparing the
11 user defined location of interest directly to the storm track of severe
12 weather conditions to determine whether the user defined location of
13 interest is within the storm track and generating the personalized storm
14 warning if the user defined location of interest is determined to be
15 within the storm track; and

16 (e) providing the storm warning to [a] the user.

1 2. (cancelled)

1 3. (currently amended) The method of Claim 1 wherein the
2 step of establishing a user profile includes the step of establishing a user
3 contact address and wherein the step of providing a personalized storm
4 warning to the user includes the step of delivering the personalized
5 storm warning to the user contact address.

1 4. (currently amended) The method of Claim 3 wherein the
2 user contact address is an e-mail address, the step of generating a
3 personalized storm warning includes the step of generating a

4 personalized storm warning e-mail message, and the step of delivering
5 the personalized storm warning includes the step of sending the
6 personalized storm warning e-mail message to the user contact e-mail
7 address.

1 5. (currently amended) The method of Claim 3 wherein the
2 user contact address is a phone number, the step of generating a
3 personalized storm warning includes the step of generating a
4 personalized storm warning voice message, and the step of delivering
5 the personalized storm warning to a user includes the step of sending the
6 personalized storm warning voice message to a phone at the user contact
7 phone number.

1 6. (currently amended) The method of Claim 3 wherein the
2 user contact address is a pager number, the step of generating the
3 personalized storm warning includes the step of generating a
4 personalized storm warning text message, and the step of delivering the
5 personalized storm warning to a user includes the step of sending the
6 personalized storm warning text message to a pager at the user contact
7 pager number.

1 7-18. (cancelled)

1 19. (currently amended) A personalized storm warning
2 generating system, comprising:

3 (a) user profile generator means for establishing a user profile
4 including a user defined location of interest;

5 (b) means for receiving first weather information from a first
6 weather information source;

7 (c) storm track generator means for generating automatically a
8 storm track of severe weather conditions from the first weather
9 information; and

10 (d) storm warning generator means for generating a
11 personalized storm warning for the user location of interest
12 automatically from the user profile and the storm track by comparing the
13 user defined location of interest directly to the storm track of severe
14 weather conditions to determine whether the user defined location of
15 interest is within the storm track and generating the personalized storm
16 warning if the user defined location of interest is determined to be
17 within the storm track.

1 20-22 (cancelled)

1 23. (currently amended) The personalized storm warning
2 generating system of Claim 19 comprising additionally means for
3 providing the personalized storm warning to an addressable device.

1 24. (currently amended) The personalized storm warning
2 generating system of Claim 19 comprising additionally means for
3 delivering the personalized storm warning to a user contact address.

1 25. (currently amended) The personalized storm warning
2 generating system of Claim 24 wherein the user contact address is an e-
3 mail address and the storm warning generator means is adapted to
4 generate a personalized storm warning e-mail message.

1 26. (Amended) The personalized storm warning generating
2 system of Claim 24 wherein the user contact address is a phone number
3 and the storm warning generator means is adapted to generate a
4 personalized storm warning voice message.

1 27. (currently amended) The personalized storm warning
2 generating system of Claim 24 wherein the user contact address is a
3 pager number and the storm warning generator means is adapted to
4 generate a personalized storm warning text message.
